

PACE UNIVERSITY-LENOX HILL HOSPITAL PHYSICIAN ASSISTANT PROGRAM-NYC, MS

Campus: NYC

New York City Campus

The Pace University-Lenox Hill Hospital Physician Assistant (PA) Program is an intensive 26-month program that prepares you to become a practicing Physician Assistant: interviewing and examining patients, ordering diagnostic tests, prescribing medications, and developing treatment plans.

- Thrive in the program's integrated curriculum that takes a holistic approach to healthcare. Preclinical training exposes students to multiple disciplines simultaneously, so the learning experience is analogous to the manner in which they will practice.
- Excel in a highly competitive and rapidly growing field. Graduates of our program have a 5-year aggregate pass rate on the National Certification Exam (PANCE) for first-time takers that is consistently higher than the national average.

Admission

Students may apply only through Central Application Services for Physician Assistants (CASPA) (<https://paeaonline.org/resources/member-resources/caspa>). CASPA will collect and summarize all of the applicant's data (application form, transcripts, recommendations), which will be forwarded to the Office of Graduate Admissions and the PA program.

Prerequisites

Students are eligible to apply to the MS degree program if they have met specific requirements set forth by the PA program and if they are expected to complete a bachelor's degree from an accredited institution prior to the program start date.
