

EXPECTED LEARNING OUTCOMES OF THE OCCUPATIONAL THERAPY PROGRAM

Upon completion of the Occupational Therapy, MS program, graduates will be able to:

1. Apply appropriate occupational therapy theories, technology, and evidence-based evaluations and interventions to address occupational therapy related issues for clients across contexts and settings.
2. Implement occupational-focused, client-centered, and interprofessional practices to maximize quality of life of all clients.
3. Perform critical thinking and clinical reasoning for evidence-based evaluations and interventions across settings and populations.
4. Adhere to professional standards and code of ethics when working with clients and other professionals.
5. Contribute to the body of knowledge and dissemination of research that support occupational therapy practice.
6. Demonstrate active involvement in professional development, leadership, advocacy, and lifelong learning.
