

INTERNET TECHNOLOGY FOR E-COMMERCE CERTIFICATE

The Internet revolution has transformed the way we live and work. As a result, it has created a demand for individuals with the skills and knowledge to build the infrastructure to make websites more than mere sources of information. In light of this need, Pace's Seidenberg School of Computer Science and Information Systems has designed a five-course, interdisciplinary, advanced certificate program in Internet Technology for e-Commerce. The program is offered entirely online. Students completing this will learn Internet programming, network design and server setup, configuration, and security.

Certificate Requirements

Code	Title	Credits
Course Requirements		
IS 612	Introduction to Coding	3
IT 603	Overview of Information Security	3
IT 604	Web Development I: Java Script and CGI Script	3
IT 608	Web Development II: Java Applets and Java Servlets	3
IT 000	Information Technology Elective	3
Total Credits		15

Any student who wishes to pursue an MS in IT after satisfactorily completing the certificate requirements will be sufficiently prepared to matriculate in the program, provided all other admission requirements are satisfied.

Gainful Employment Disclosure for students in an approved non-degree certificate program.
