

INFORMATION SYSTEMS MAJOR, BS

Campus: NYC

Note: This program is formally discontinued effective Fall 2026 on the Pleasantville campus only. We will still be accepting new applicants or declarations to the programs for attendance on the New York City campus only.

Students who declared this program prior to the discontinuation date may continue to complete degree requirements under the catalog in effect at the time of their entry, or under an approved revised academic plan.

The University will provide a reasonable opportunity for currently enrolled students to complete the program through a teach-out plan or approved substitutions, as appropriate.

Students must work with their academic advisor to confirm remaining requirements and timelines for completion.
